Cancer Care Associates is thrilled to announce the exciting next step in the development of Cancer Care Noosa, a cutting-edge facility that will transform cancer care services across the northern area of the Sunshine Coast and beyond. Turning the first sod on the site today, Noosa Mayor Clare Stewart said the new facility, which forms part of a new Noosa Health Precinct, represents a major milestone for the region.

"Cancer Care Associates' commitment to delivering advanced technologies and specialised services is commendable and aligns with our vision for a healthier and more connected community" expressed Mayor Clare Stewart.

With Lumus Imaging joining the development as the Radiology service provider, Cancer Care Noosa will bring PET CT, MRI, CT, and other essential imaging services to the community. This development will greatly enhance the diagnostic capabilities for cancer patients, allowing for more accurate and timely detection and monitoring of the disease. Patients will no longer

need to travel out of area to Kawana to access PET CT, reducing the burden and stress associated with accessing these critical services.

"In a region experiencing notable population growth and an ageing demographic, we are delighted to be able to improve access to world-class comprehensive cancer care services" said Damien Williams, CEO of Cancer Care Associates. "By eliminating the need for patients to travel long distances and reducing wait times, we are committed to improving the overall patient experience and outcomes in the local area."

Cancer Care Noosa will be located in the new Noosa Health Precinct, a Trident Property Advisory development, along with other key services including a Breast Clinic, Imaging and pathology services. This new health precinct presents exciting opportunities for commercial medical consulting tenancies with areas available from 100m<sup>2</sup> up to 1200m<sup>2</sup>. Interested parties are encouraged to contact CBRE to explore available options for leasing and partnership opportunities within this new facility.

Cancer Care Associates is dedicated to improving the lives of individuals affected by cancer through the provision of comprehensive and compassionate care. With the Cancer Care Noosa development, the organisation continues to make significant strides in delivering advanced cancer care services on the Sunshine Coast.

### About Cancer Care Associates:

Cancer Care Associates (CCA) is committed to providing cancer patients with the highest level of personalised comprehensive cancer care.

We offer access to the brightest minds in Oncology medicine, state-of-the-art facilities and customised therapy treatments creating a one-stop, best practice patient support environment. CCA currently has five centres in NSW with another five in development including expansion into Southeast Queensland with Cancer Care Moreton Bay at Caboolture and Cancer Care Noosa in Noosaville. CCA have plans for further expansion into other areas across Australia in the near future.

Our comprehensive cancer care model integrates medical oncology, haematology, radiation oncology and oncology pharmacy services in the one location. We also provide access to clinical trials and pathology services as a comprehensive suite of services for cancer patients.

CCA's 'no wait for care' policy is the cornerstone to our service, ensuring all therapies are delivered without joining a waiting list.
